A. ANNOUNCEMENTS

Office Closures Christmas Period

The Royalty Operations Branch will be closed from December 24th to 30th, 2014 and on January 1st, 2015. Limited services will be available during regular office hours at the Edmonton office only on December 31st. This is in accordance with the Government of Alberta's new holiday season schedule. Please refer to the Monthly Information article entitled [October 2014 Royalty Due January 31, 2015](#) for additional information regarding royalty payment.

Statutory Requirement and Recalculation of 2010 Royalty

A production year becomes statute barred on December 31st, four years after the end of a production year. Once a year has become statute barred, calculation or recalculation of royalty does not occur on a monthly basis. Section 38 of the Mines and Minerals Act provides for recalculation of royalty that can be initiated in two ways:

1. On the department's initiative in conjunction with an audit or examination; or
2. At the request of a royalty payer.

Department Initiated Amendments

The following is under review by the Department for the production year 2010 and will be completed in 2015:

- Royalty Liable Gas Used for Fuel (PURREC/PURDISP)
- Review of Allocations to the Royalty Paid Stream ID AB WG 99999
- Review of Allowable Cost closing balance transfers (previous to new FCC)

2010 Production Year Audits in Progress at the end of 2014

The 2010 production year becomes statute barred on December 31, 2014. Non-operator partners are advised that certain Enhanced Oil Recovery Schemes, CO2 Project Credit claims, allowable operating and capital costs (including costs reported at facilities where fractionation occurs), custom processing fees, capital costs, custom processing adjustment factor (CPAF), and volumetric reporting discrepancy audits are currently in progress.

It is anticipated that these audits will be completed before December 31, 2014. However, should circumstances warrant, completion of these audits will occur in 2015. [Attached](#) is a list of facilities affected by the outstanding custom processing adjustment factor review and the AC2 review. All facility cost centres linked to the noted facility are open for a potential review.

Royalty clients are also reminded that amendments received by the Department in the fourth year following the production year may be subject to audit. If the amendments are received late in the fourth year and insufficient time is available for the Department to commence a review of the amendments prior to the end of the year, the Department reserves the right to commence the audit at the beginning of the fifth year.

If you have any questions, please contact Robert Sonogo of the Compliance & Assurance branch at 403-297-8774.

Industry Recalculation of 2010 Royalty

Industry initiated royalty recalculation requests for the 2010 production year must be submitted in writing to the attention of Olga Marocco, Manager, Volumetric & Cost Reporting, Gas Royalty Operations.

The Royalty Operations Branch will be closed from December 24th to 30th, 2014 and on January 1st, 2015. Limited services will be available during regular office hours at the Edmonton office only on December 31st. **Due to the office closure, requests must be received by the department on, or before, December 23, 2014** and it must include the following:

- Identification of the recalculation facility or facilities
- A list of the royalty variables proposed for recalculation
- The reason for the recalculation
- The production year of the recalculation
- An order of magnitude estimate (i.e. >\$100,000, >\$1 Million, >\$2 Million, etc..) of the recalculation requested
- Identification of all royalty clients that may be impacted by the request (this is necessary, especially in situations where volumes may be cascaded to another client who is expected to respond to the cascade)
- Confirmation from the operator that the affected partner(s) have been notified
- A sample copy of the submission pertaining to a particular production month in paper or electronic format (e.g., excel)

If the request meets the department's terms and conditions for recalculation, it will be approved.

A request made during the fourth year following the production year, must be completed before the end of the fifth year, with a reasonable time for a review by the department, prior to the end of the fifth year.

If you have any questions regarding this process, please contact Volumetric & Cost Reporting, as identified in [Section E](#) of this bulletin.

October 2014 Royalty Due January 31, 2015

Royalty clients are to remit the total amount payable shown on the January 2015 Statement of Account by January 31, 2015. If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided. Current period interest will not be charged on current invoice charges for the production month of October if it is paid in full by January 31, 2015.

The January 2015 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your October 2014 invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.

Production Allocation Discrepancy (PAD) Potential Royalty Impact

As of the September 2014 billing period, the potential royalty dollar impact is estimated as \$4.4 million, for the production months of April through September 2014.

Note: These values are not intended to show that Crown royalty has been understated but do illustrate the consequences of incorrect reporting.

Well Event Measured Depth Determination Letter

The department has issued a “Well Event Measured Depth Determination Letter” under the Report Package DOE – Gas to facility operators via Petrinex on December 2, 2014. This letter shows the confirmed Measured Depth (MD) of each active well event that will be used to calculate the Depth Factor (DF) of the quantity component rate under the Alberta Royalty Framework formula. A well event that is not listed on the letter and does not have a confirmed MD will receive a DF of 1. When the changes to the MD are confirmed by the department, a letter is issued to a facility operator who reports changes through Petrinex to well event attributes affecting MD. All changes to the MD are applied on a go forward basis only. Facility operators are advised to submit well event attribute changes by the last day of the calendar month in order for timely determination of MD.

NGDDP Confidential Wells

Wells designated as “confidential” will be reviewed prior to the removal of the “confidential” status, if the directional surveys and completion reports are provided to the department. Send directional surveys and completion reports to GasRoyaltyPrograms@gov.ab.ca

If you have any questions, please contact Lily Hiew in Gas Royalty Features at 780-427-1550.

C. INFRASTRUCTURE DATA

Business Associate ID Listing

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, and includes Working Interest Owner (WIO) role start/end dates.

This [report](#) is also published daily on the Petrinex website.

The Department reminds Business Associates to review their WIO role to ensure that the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry/Crown Land Data at 780-422-1395 or CrownLandDataSupport@gov.ab.ca if you have any questions regarding the information supplied in this article.

Client Status Changes

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client status changes, names, or IDs, please contact Client Registry/Crown Land Data at 780-422-1395 or CrownLandDataSupport@gov.ab.ca.

Nova Tolls - Multiple Gas Reference Prices

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under [Facility Royalty Trigger Factors and Meter Station Ties](#).

D. REMINDERS

2010 Review of Allocations to the Royalty Paid Stream ID AB WG 99999

The department is reviewing allocations of royalty paid volumes for the production year 2010. The objective of the review is to ensure that the SAF and OAF volumes comply with the AB WG 99999 approval agreements and are accurately reported on PETRINEX. Where reporting errors are found, royalty clients will be notified to submit amendments. The review will be completed in 2015.

Annual Reports In CSV format

The Department has developed several reports in CSV format. These reports are expected to be available and sent to Petrinex with the October 2014 billing period invoice which will be issued in December 2014. The reports that will be available in CSV are:

1. **Annual CCA and CP Fee Adjustment (CSTADJ)**
2. **Crown Share Operating Cost Allowance (CROPA)**
3. **Crown Share Custom Processing Allowance (CRCPA)**
4. **Crown Share Capital Cost Allowance (CRCCA)**
5. **Annual Allowable Cost Restriction Adjustment (AACR)**
6. **Facility Average Price Supporting Details (FAVRP)**

The Department will continue to send the PDF and TXT formats of these reports in addition to the CSV format.
