## A. PRICING RATES AND TRANSPORTATION INFORMATION

For Pricing, Royalty Rates and Transportation Information for April 2011, refer to [Attachments 1, 1A, 2, 2A](#) and [3](#). These attachments are also available in [Excel Format](#).

## B. NOTICES

### *2011 Capital Cost, Operating Cost and Custom Processing Fee Allowances*

For the January through March 2011 billing period invoices, royalty clients received estimated monthly cost deductions that were based on actual allowable costs for the 2009 production year, multiplied by their estimated Facility Effective Royalty Rates (FERR), divided by 12 (months).

The information in the 2010 AC2, AC3, and AC5 documents were used to calculate the 2010 actual capital cost, operating cost and custom processing fee allowances. The calculations are reflected in the April 2011 Initial Annual Billing Period (IABP) invoice, issued in June 2011.

The 2010 actual allowable costs will become the royalty client's 2011 allowable cost estimates.

Commencing with the April 2011 billing period, royalty clients will receive monthly deductions based on their 2011 allowable cost estimates, multiplied by their new FERR, minus the total deductions received in the January through March 2011 billing period invoices, divided by the number of months remaining in the year (e.g. 9 months as of the April billing period).

If a royalty client requires a change to the 2011 go-forward allowable cost estimates and/or the FERR, a written request with supporting documentation must be submitted to the Gas Royalty Volumetric and Cost Reporting team (see Chapter 6, Section 1 of the Guidelines). These estimates must be calculated and submitted at a client/facility level.

## C. MONTHLY INFORMATION

### *April 2011 Royalty Due July 31*

- **Royalty clients are to remit the total amount payable shown on the July 2011 Statement of Account by July 31, 2011.** If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date.

Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided.

- **The July 2011 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your April 2011 invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.**
- Current period interest will not be charged on current invoice charges for the production month of April 2011 if it is paid in full by July 31, 2011.
- Current period interest will accrue on any overdue charges commencing the first day after the due-date until it is paid in full.

**Note: If the due date falls on a non-business day, the next business day will apply as the due date.**

- Cheques are payable to the Minister of Finance, Province of Alberta.

### **May 2011 VA4 Due July 15**

The VA4 forms for the production month of May 2011 are due in the department offices by July 15, 2011.

### **Gas Royalty Operations Support**

Upon request, Gas Royalty Operations staff will be available to meet with clients who need assistance with royalty reporting. Royalty clients requiring assistance are encouraged to contact your respective Volumetric and Cost Reporting portfolio representative, as identified in [Section F](#) of this bulletin, to arrange a meeting.

### **Well Event Measured Depth Determination Letter**

The department has issued a “Well Event Measured Depth Determination Letter” under the Report Package DOE – Gas to facility operators via the PRA on June 1 and June 13, 2011. This letter shows the confirmed Measured Depth (MD) of each active well event

that will be used to calculate the Depth Factor (DF) of the quantity component rate under the new royalty formula. A well event that is not listed on the letter and does not have a confirmed MD will receive a DF of 1. When the changes to the MD are confirmed by the department, a letter is issued to a facility operator who reports changes through the PRA to well event attributes affecting MD. All changes to the MD are applied on a go forward basis only. Facility operators are advised to submit well event attribute changes by the last day of the calendar month in order for timely determination of MD.

## **D. INFRASTRUCTURE DATA CHANGES**

### **Client ID Listing**

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates. This report is also published daily on the Petroleum Registry website at:

<http://www.petroleumregistry.gov.ab.ca>

The department reminds Business Associates to review their WIO role to ensure that the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry at 780-422-1395, if you have any questions regarding the information supplied on this listing.

### **Client Status Changes**

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at 780-422-1395.

## **Multiple Gas Valuation Prices**

Royalty information related to the determination of the Meter Station Factors to adjust transportation for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under [Facility Royalty Trigger Factors and Meter Station Ties](#).

## **E. REMINDERS**

### **Royalty Deposit Adjustment**

The annual royalty deposit adjustment is calculated as 1/6th of the client's previous year's royalty multiplied by a factor. The factor of 1.40 is calculated by dividing the current year's long term gas price for 2011 of \$5.00 by the average 2010 Alberta reference price of \$3.57. The adjustment was processed in the Initial Annual Billing Period (IABP), June 2011 calendar month (April 2011 billing period invoice).

If you have any questions, please contact Penny White at 780-422-8083.

### **Royalty Adjustment Program/New Well Royalty Rates Prefix Table**

The New Well Royalty Rates from the Competitiveness Review will be fully implemented in the June 2011 production period. The following table has been created to help you understand how a stream transitions from one rate to the other on the Crown Royalty Detail Calculation and Condensate Royalty Calculation Detail Report. If a prefix appears next to a royalty rate, the new well royalty rate is applied (e.g. New Well Royalty Rate, Coalbed Methane, Shale Gas, Horizontal Gas or Horizontal Oil). If a prefix appears next to an exemption amount (\$), the royalty adjustment program is applied (e.g. DGRHP, NGDDP or New Well Royalty Reduction).

For those clients who receive the Comma Separated Values (CSV) format of the Crown Royalty Detail Calculation or Condensate Royalty Calculation Detail report, the corresponding changes will be applied to the Royalty Adjustment Program/New Well Royalty Rate Type column, previously called Royalty Adjustment Program. If you have any questions, please contact Joyce Chen at 780-427-1550 or email [gasroyaltyprograms@gov.ab.ca](mailto:gasroyaltyprograms@gov.ab.ca).

D – Deep Gas Royalty Holiday Program (DGRHP)  
N – Natural Gas Deep Drilling Program (NGDDP)  
R – New Well Royalty Reduction/Rate (NWRR)  
C - Coalbed Methane New Well Royalty Rate (CMNWRR)  
S - Shale Gas New Well Royalty Rate (SGNWRR)  
G - Horizontal Gas New Well Royalty Rate (HGNWRR)  
O - Horizontal Oil New Well Royalty Rate (HONWRR)

### **New Well Royalty Regulation Approved**

The New Well Royalty Regulation was approved by Cabinet on March 16<sup>th</sup> and the Lieutenant Governor in Council on March 17<sup>th</sup>:

[Approved Orders in Council](#)

[O.C. 88/2011 - A.R. 32/2011](#)

### **Annual Operating Cost Adjustments for 2005 through 2008 Production Years**

Royalty clients may have a charge type on their February 2011 invoice titled "Annual Operating Cost Adjustment". For each of the production years 2005 through 2008, this adjustment represents a change in the Crown share of operating costs due to the annual recalculation of unit operating cost rates (UOCR). Two reports titled Annual Operating Cost Adjustment Details and Annual Operating Cost Adjustment Summary are included with the February invoice issued in April. Each prior year's actual rates from this year's UOCR calculation process are published and can be viewed at the Unit Operating Cost Rates link on the [Royalty Related Information](#) page on the department website.

Effective with the 2009 production year, operating costs have been distributed to owners of each facility in a similar manner as capital costs and custom processing fees. This new method of distribution does not require an estimated or actual UOCR and there is no subsequent need to recapture operating costs from non-owners at the end of a year.

For additional information, please refer to the [March 2004 Supplement Information Bulletin 04-03A](#) as well as the [Changes to Gas Cost Allowance](#) link on the department website. If you require further information on these changes, please contact your respective Volumetric and Cost Reporting portfolio representative as identified in Section F of this bulletin.

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the “Supra” business associate, or Royalty payer. Below are some guidelines for clients who are unsure which Client Services Team to call regarding their questions.

1. **Amalgamation/consolidation** - Call the team responsible for the “Supra” business associate (Royalty Payer).
  - i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Client Services regarding business for ABC Oil and Gas, you would call Team 3 (Q-Z) (780-644-1203) because Zed Exploration is now the Supra business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.
  
2. **Asset Purchase** - Call the team responsible for your company.
  - i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Client Services regarding business for 123 Gas, you would call Team 1 (# Co., A, B, & H-P) (780-644-1201) because you have only purchased assets.
  
3. **Consultants/service providers** - If you have a contract to provide production accounting services to a company, call the team responsible for your client’s company.
  - i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 1 (# Co., A, B, & H-P) (780-644-1201) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized to access information for their company.
