## **A. PRICING RATES AND TRANSPORTATION INFORMATION**

For Pricing, Royalty Rates and Transportation Information for August 2011, refer to [Attachments 1, 1A, 2, 2A](#) and [3](#). These attachments are also available in [Excel Format](#).

## **B. NOTICES**

### **Alberta Natural Gas Royalty Guidelines - 2009 Edition**

The Alberta Natural Gas Royalty Guidelines (2009) have been finalized and released to the department's website located at: [www.energy.gov.ab.ca](http://www.energy.gov.ab.ca)

The department updates the Alberta Natural Gas Royalty Guidelines when there is a major change in relevant policy or legislation, and regularly to incorporate information published in Information Letters and Information Bulletins. Some major changes included in this guideline release are the Alberta Royalty Framework and Competitiveness Review changes, specifically dealing with royalty rate components and formulas, royalty reductions and gas cost allowance.

Please note that the 2009 edition is effective for January 2009 production periods forward. The 2006 edition is still applicable for periods prior to January 2009.

If you have any questions, please contact Penny White at 780-422-8083.

### **Industry-Wide Distribution of Current RMF2 Listing and EAGEV Reports**

To date, the following reports have been available for distribution to royalty clients upon request:

- Current RMF2 Listing – issued to royalty clients who are assignors on the RMF2 form and identifies active reassignments of volumes with an effective date range in an open year
- Energy Adjusted Gas Equivalent Volume (EAGEV) – identifies all corporate volumes (including freehold, non-Alberta, and purchased) for a royalty payer and its royalty clients

In consultation with the Business Operations Work Committee (BOWC), it was agreed that both of these reports will now be routinely provided with the monthly invoice package for all industry royalty clients, commencing with the August 2011 billing period invoice run in

October 2011. Rather than process individual royalty client requests to be removed from monthly distribution, the department asks that you discard the outputs if you do not require this information.

If you have any questions, please contact your Volumetric & Cost Reporting portfolio representative, as identified in [Section F](#) of this bulletin.

## **C. MONTHLY INFORMATION**

### **August 2011 Royalty Due November 30**

- **Royalty clients are to remit the total amount payable shown on the November 2011 Statement of Account by November 30, 2011.** If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided.
- **The November 2011 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your August 2011 invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.**
- Current period interest will not be charged on current invoice charges for the production month of August 2011 if it is paid in full by November 30, 2011.
- Current period interest will accrue on any overdue charges commencing the first day after the due-date until it is paid in full.

**Note: If the due date falls on a non-business day, the next business day will apply as the due date.**

- Cheques are payable to the Minister of Finance, Province of Alberta.

### **September 2011 VA4 Due November 15**

The VA4 forms for the production month of September 2011 are due in the department offices by November 15, 2011.

**Note: If the due date falls on a non-business day, the next business day will apply as the due date for VA4 forms.**

### **Registry Deadline Submissions**

The Registry deadline submissions for SAF, OAF, and Volumetrics are posted in the [Petroleum Registry of Alberta](#) website “Reporting Calendars” under Calendars.

Changes to this calendar will be posted on the Registry website home page in “Broadcast Messages.”

**Interest Rate October 2011**

Alberta Energy’s interest rate for October is 4.00%.

**July Provisional Assessment Charge**

The summary of Provisional Assessment Charges for all production periods in the July 2011 billing period was:

<b>First Time Provisional Assessment</b>	<b>Reversals of Provisional Assessments</b>	<b>Net Provisional Assessment</b>
<b>\$1,240,211.13</b>	<b>\$(2,575,764.68)</b>	<b>\$(1,335,553.55)</b>

**July Penalty Charges**

The penalty table below shows at the form level, the total penalty charges and reversals, for the July 2011 billing period:

<b>Form</b>	<b>Penalty Charges</b>	<b>Penalty Reversals</b>	<b>Net Penalty Charges for 2011/07</b>
AC2	\$57,500.00	(\$10,200.00)	\$47,300.00
AC4	\$0	\$0	\$0
AC5	\$2,100.00	\$0	\$2,100.00
NGL1	\$0	\$0	\$0
VA2	\$0	\$0	\$0
VA3	\$0	\$0	\$0
VA4	\$1,800.00	\$0	\$1,800.00
<b>Total</b>	<b>\$61,400.00</b>	<b>(\$10,200.00)</b>	<b>\$51,200.00</b>

**Gas Royalty Operations Support**

Upon request, Gas Royalty Operations staff will be available to meet with clients who need assistance with royalty reporting. Royalty clients requiring assistance are

encouraged to contact your respective Volumetric and Cost Reporting portfolio representative, as identified in [Section F](#) of this bulletin, to arrange a meeting.

### **Well Event Measured Depth Determination Letter**

The department has issued a “Well Event Measured Depth Determination Letter” under the Report Package DOE – Gas to facility operators via the PRA on October 3 and October 12, 2011. This letter shows the confirmed Measured Depth (MD) of each active well event that will be used to calculate the Depth Factor (DF) of the quantity component rate under the new royalty formula. A well event that is not listed on the letter and does not have a confirmed MD will receive a DF of 1. When the changes to the MD are confirmed by the department, a letter is issued to a facility operator who reports changes through the PRA to well event attributes affecting MD. All changes to the MD are applied on a go forward basis only. Facility operators are advised to submit well event attribute changes by the last day of the calendar month in order for timely determination of MD.

## **D. INFRASTRUCTURE DATA CHANGES**

### **Client ID Listing**

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates. This report is also published daily on the Petroleum Registry website at:

<http://www.petroleumregistry.gov.ab.ca>

The department reminds Business Associates to review their WIO role to ensure that the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry at 780-422-1395, if you have any questions regarding the information supplied on this listing.

### **Client Status Changes**

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at 780-422-1395.

### **Multiple Gas Valuation Prices**

Royalty information related to the determination of the Meter Station Factors to adjust transportation for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under [Facility Royalty Trigger Factors and Meter Station Ties](#).

## **E. REMINDERS**

### **Client Contact Information**

In order to provide more efficient service to clients, Gas Royalty Operations needs to have current contact information. This information is required when we make changes to our royalty calculation software which results in changes to the User Defined Files (UDF) and Department Defined Files (DDF) which the client downloads in EDI. If you want to be advised in advance of these changes please send your current contact information, (must be an e-mail and mailing address) for either your IT Department or Production Accounting Department. This contact information can be e-mailed to [BusinessSystemsCoordination.Energy@gov.ab.ca](mailto:BusinessSystemsCoordination.Energy@gov.ab.ca).

### **NGL Reference Prices, August 2011**

A sizeable number of prior period audit amendments have been processed this month resulting in significant adjustments to NGL Reference Prices and Transportation Allowances. The Department of Energy intends to become as current as possible with prior period NGL audit amendments, in anticipation of changes to the calculation of NGL Reference Prices and Allowances. The Department of Energy and Industry are currently engaged in a review of the NGL Royalty Valuation model, but details of a replacement model and implementation timelines are not yet known. Please see attachment [2A](#).

### **Statutory Requirement and Recalculation of 2007 Royalty**

A production year becomes statute barred on December 31st, four years after the end of a production year. Once a year has become statute barred, calculation or recalculation of

royalty does not occur on a monthly basis. Section 38 of the Mines and Minerals Act provides for recalculation of royalty that can be initiated in two ways:

1. On the department's initiative in conjunction with an audit or examination; or
2. At the request of a royalty payer.

### ***Audits in Progress***

Non-operator partners are informed that audits on certain allowable costs and other reporting discrepancies are in progress for the 2007 production year. Allowable costs include capital costs, operating costs, custom processing fees and custom processing adjustment factors.

It is anticipated that these audits will be completed before December 31, 2011. However, should circumstances warrant a completion of these audits in 2012, a list of the affected Energy Resources Conservation Board facilities will be included in the December 2011 Information Bulletin. Royalty clients are also reminded that amendments received by the department in the fourth year following the production year may be subject to audit. If the amendments are received late in the fourth year and insufficient time is available for the department to commence a review of the amendments prior to the end of the year, the department reserves the right to commence the audit at the beginning of the fifth year.

If you have any questions, please contact Kris Pretty, Manager, Compliance & Assurance, Calgary, at 403-297-8785.

### ***Industry Recalculation of 2007 Royalty***

Industry initiated royalty recalculation requests for the 2007 production year must be submitted in writing to the attention of Pat Van Meer, Manager, Volumetric & Cost Reporting, Gas Royalty Operations. This request must be received by the department on, or before, December 31, 2011 and it must include the following:

- Identification of the recalculation facility or facilities
- A list of the royalty variables proposed for recalculation
- The reason for the recalculation
- The production year of the recalculation
- An order of magnitude estimate (i.e. >\$100,000, >\$1 Million, >\$2 Million, etc.) of the recalculation requested
- Identification of all royalty clients that may be impacted by the request (this is necessary, especially in situations where volumes may be cascaded to another client who is expected to respond to the cascade)
- The time lines for recalculation: preparation and submission to the Crown including a reasonable time frame for the Crown to review the recalculation
- Confirmation from the operator that the affected partner(s) have been notified

- A sample copy of the submission pertaining to a particular production month in paper or electronic format (e.g., excel)

If the request meets the department's terms and conditions for recalculation, it will be approved. A request made during the fourth year following the production year, must be completed before the end of the fifth year, with a reasonable time for a review by the department, prior to the end of the fifth year.

If you have any questions regarding this process, please contact your Volumetric & Cost Reporting portfolio representative as identified in [Section F](#) of this bulletin.

## **F. POINTS OF CONTACT**

### **Petroleum Registry of Alberta**

The Petroleum Registry of Alberta Service Desk is the focal point for communications with the Registry regarding preparations for, access to, or utilization of the Registry.

To contact the Petroleum Registry of Alberta Service Desk:

Phone: 403-297-6111 or 1-800-992-1144

Fax: 403-297-3665

Email: [petroleumregistry.energy@gov.ab.ca](mailto:petroleumregistry.energy@gov.ab.ca)

### **Alberta Energy Internet**

Prices, Royalty Rates and Transportation Information are available on the Alberta Energy Internet address: [www.energy.alberta.ca](http://www.energy.alberta.ca), from “Our Business”, navigate to “Natural Gas”, “About Natural Gas”, “Prices”, “Alberta Natural Gas Reference Price (ARP)”. In addition, both the Gas Royalty Information Bulletins and Information Letters are also available under “Our Business”, navigate to “Natural Gas”, “Legislation, Guidelines & Policies”.

### **Volumetric & Cost Reporting**

Volumetric & Cost Reporting is structured as a Business Associate client portfolio system, which assigns a given Business Associate to one of three teams. Listed below is the portfolio breakdown along with the Volumetric & Cost Reporting Team Leads and phone numbers. The portfolios are divided by company name and not by BA ID.

Example: If your company name is the “Gas Company” you would call the C – G team at 780-644-1202.

Business Associate	Phone Number and E-mail Address	Team Lead
Numbered companies, A, B H-P	780-644-1201 <a href="mailto:VCR1@gov.ab.ca">VCR1@gov.ab.ca</a>	Mary Spearing
C – G	780-644-1202 <a href="mailto:VCR2@gov.ab.ca">VCR2@gov.ab.ca</a>	Lily Hiew
Q – Z	780-644-1203 <a href="mailto:VCR3@gov.ab.ca">VCR3@gov.ab.ca</a>	Jyoti Bhambhani

Gas Royalty Reception: 780-422-8727  
 Fax: 780-427-3334 or 780-422-8732  
 Alberta Toll Free: 780-310-0000

Hours of operation are 8:15 a.m. to 4:30 p.m. Voice messages left after 4:30 p.m. will be answered the next business day.

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the “Supra” business associate, or Royalty payer. Below are some guidelines for clients who are unsure which Client Services Team to call regarding their questions.

1. **Amalgamation/consolidation** - Call the team responsible for the “Supra” business associate (Royalty Payer).
  - i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Client Services regarding business for ABC Oil and Gas, you would call Team 3 (Q-Z) (780-644-1203) because Zed Exploration is now the Supra business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.
  
2. **Asset Purchase** - Call the team responsible for your company.
  - i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Client Services regarding business for 123 Gas, you would call Team 1 (# Co., A, B, & H-P) (780-644-1201) because you have only purchased assets.
  
3. **Consultants/service providers** - If you have a contract to provide production accounting services to a company, call the team responsible for your client’s company.
  - i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 1 (# Co., A, B, & H-P) (780-644-1201) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized to access information for their company.

Effective January 2011 production period, the royalty rates for methane and ethane are calculated based on a modified royalty formula. The Alberta Royalty Framework Natural Gas Formulas effective the production years 2011, 2010 and 2009 and for Transition, are available on the Alberta Energy Internet address: <http://www.energy.alberta.ca>

From the home page, select the Alberta Royalty Framework tab to navigate to select the appropriate formula.
